Brief statement of why you would like to run for this position:

I have watched my sport of women's ski jumping evolve from the grassroots and am so proud to see where it is now. As an American I have witnessed two of my teammates earn the crown of World Champion (Lindsey Van, and Sarah Hendrickson), I have seen my fellow competitors compete in the first-ever Olympic Winter Games, and have had the opportunity to explore the sport from different angles. I lived, trained and went to school in Austria for three years, and viewed the support their athletes were receiving in ski jumping and nordic combined. Along with becoming fluent in German, I was also able to get an unfiltered view of the pros and cons of their system, and learned in which areas our own federation could help us reach our very best.

For the past two years, I have been based in Slovenia and am getting to know how things work over here. I think these insights are invaluable and we can use this information to continue improving the US programs, from development to support of our top athletes. The recent union of USA Nordic is a huge step for ski jumping and nordic combined in the United States, and I feel that I would be a great representative for our athletes. I want to see US Ski Jumping and Nordic Combined grow to rival the likes of Germany, Austria and Norway. We have the tools and need to continue striving to become exactly that: the best in the world.
